Career Objective

Results-driven and detail-oriented Full-Stack Java Developer with approx. 4.3 years of hands-on experience and Adept in micro-services architecture, RESTful APIs, and scalable full-stack solutions using Java, Spring Boot, Hibernate, and React. Seeking a challenging remote role to contribute technical expertise and drive end-to-end product development in a growth-oriented organization.

Technical Skills

Programming Languages	Java (Core Java, Java 8/11/17), SQL, PL/SQL
Backend and APIs	Java, Spring Boot, Spring Cloud, Spring MVC, Spring WebFlux, Hibernate, JPA, Spring Data, Spring Batch, REST, GraphQL, Drools
Event-Streaming & Messaging	Apache Kafka, Kafka Streams, Kafka Connect, Kafka MongoDB connector, Kafka Producers, Kafka Consumers, SQS, SNS
Cloud and Infrastructure	AWS EKS, AWS Lambda, EC2, S3, RDS, SQS, SNS, AWS, CodePipeline, AWS Glue, AWS Fargate, Azure AKS, Azure SQL, Azure App Service, Azure Monitor
Databases and Storage	MongoDB Atlas, MongoDB, Oracle, MySQL, Redis, Elasticsearch, Amazon S3, AWS RDS, Azure SQL
DevOps and CI/CD	GitHub Actions, Jenkins, GitLab CI, Maven, Gradle, Docker, Kubernetes, Helm, Terraform, AWS CDK, SonarQube, Nexus
Testing and Quality	JUnit 5, Mockito, Testcontainers, Gatling, JMeter, Pact, Spring Cloud Contract, Pitest, Checkstyle, PMD
Monitoring and Observability	Amazon CloudWatch, OpenTelemetry, Prometheus, Grafana, Azure Monitor, Fluent Bit, Log Analytics, Elasticsearch, Kibana

Professional Experience

Tech Aura pvt ltd

Full-Stack Developer | August 2025 – May 2026

Projects: - [Health Management Service \(United Health Care \(OPTUM\)](#)

Tools: - Spring Boot | React | RabbitMQ | MySQL

- Designed and developed responsive UI components for appointment scheduling, and doctor dashboards.
- Built RESTful APIs and backend services using Spring Boot to manage patient records, OPD visit logs.
- Collaborated in Agile sprints, contributed to story refinement, and participated in sprint planning, reviews.
- Worked on role-based access control for Admin, Doctor, and Receptionist panels.

AI-Powered Mock-Test Platform [link](#)

Spring Boot | React | Redis | Spring AI | MySQL

- Built secured REST APIs to fetch and process questions for test, assess Score, and generate reports on Result.
- Integrated Redis-Stream for real-time transaction of AI question generation and Score Calculation.
- Integrated various models for Gemini AI & Groq AI with fall-back strategy to generate AI responses.
- Designed batch generation & filtration system to extract valid Question & report from uncertain AI responses.

Kellton Tech Solution

Full-Stack Developer | May 2025 – August 2025

Projects: - [Human Resource Management Service \(LIC\)](#)

Tools: - Spring Boot | React | MySQL | JBoss | Git-Bucket | Redis | JWS

- Spearheading the development of a comprehensive Human Resource Management System (HRMS).
- Design and digitize all HR-related functions including employee onboarding, payroll, transfers, promotions etc.
- Involve and play a key role in building frontend UI.

Corefront Technologies Limited

Java Developer (Backend) | Mar 2022 – May 2025

Projects: - Motor Insurance Claim Application (Statewide Insurance Group (In USA))

Tools: - Spring Boot | React | Kafka | MySQL | JBoss | Git-Bucket | Redis | OAuth

- Developed and optimized backend microservices for blog publishing and insurance claim processing.
- Improved API response time by 15% via SQL query optimization and Redis caching.
- Secured applications by integrating OAuth2, JWT, and session-based authentication.
- Partnered with the frontend team, contributing UI enhancements using React, HTML, CSS, and JavaScript.

Projects

Credit Score Analysis Platform Swedbank (In Sweden)

Spring Boot | React | Kafka | MySQL |

Created a secure platform for evaluating credit scores by analysing user financial behaviour.

- Built REST APIs to fetch and process financial data, assess creditworthiness, and generate reports.
- Integrated Kafka for real-time transaction data streaming and fraud detection.

Certifications

- GitHub Copilot - **UDEMY** - July, 2025
- Full-Stack Developer - **Edureka** - 2022

Education

M.C.A.	2021-2023	Maharaja Agrasen Himalayan Garhwal University, Uttarakhand
B. Tech	2017-2020	Veer Bahadur Singh Purvanchal University, Jaunpur
HSC	2014	UP Board
SSC	2010	UP Board
